Suggestions/Comments to the instructor

I have a interest in open-source software, which led me to enroll in this course.
I have high expectations and look forward to gaining valuable knowledge and practical experience throughout the class.

If the course allows, I would be very interested in covering topics related to licensing in open-source software or exploring different open-source communities and their dynamics.

I will do my best to actively participate and make the most out of this opportunity.
Thank you for reading!
